

Homeschool Hybrid Program: Grades 1-2

Beginning in August 2025, Sanlando Christian School will offer a program for children in 1st and 2nd grades that will extend our mission and unique environment to elementary- aged children. The hybrid partnership provides support for parents who desire greater involvement in their children's education.

Mission and Purpose:

Sanlando Christian School is building an educational community where parents and teachers work together to help children love God, love learning, and love others. This program will be a natural extension of what children have learned and experienced in our preschool and kindergarten classrooms.

Program Highlights:

The homeschool hybrid model at Sanlando will cover all skills and subject areas required by the state of Florida. Families are responsible for fine arts, physical education, special projects related to the units of study, and any work that is not completed on campus.

Structure: The on-campus portion of the program will be held Tuesday - Thursday from 8:45 am - 2:00 pm, and Friday from 8:45 am - 12:00 pm. It will encompass the following content areas:

- Language Arts
- Mathematics
- Science & Technology
- Social Studies
- Faith Formation
- Social & Emotional Development

Curriculum & Instruction: The on-campus portion of the day will include classroom routines, activities and expectations that will help children establish a sense of community and provide opportunities for leadership training.

- Learning experiences will continue to be hands-on, multisensory and project-based. They will include whole-group, small-group, and individual settings.
- Curricula for on-campus instruction are research-based and aligned to the Florida Standards.
- Learning is wide (covering all standards and a variety of topics) and deep, meaning children will explore higher-level knowledge about topics based on their ability.

- Curriculum for home-based learning is not provided by the school; however, teachers will consult with parents on appropriate learning activities to meet the standards.

Planning & Progress Monitoring:

- Parents will meet with the teacher prior to the start of the school year to develop a Student Learning Plan (submitted by parents to the funding agency).
- Parents will receive quarterly progress reports with detailed information on skill development & mastery.
- There will be a minimum of two parent-teacher conferences offered to discuss children's progress and adjust learning plans as needed.
- Children will participate in a norm-referenced assessment per state requirements.

Connection to Sanlando Christian School: Though the Homeschool Hybrid program is under the umbrella of Sanlando Christian School, the attendance policies of SCS's private school program do not apply. Children in the Homeschool Hybrid program WILL be included in the following activities:

- Weekly chapel with the SCS Chapel Specialist
- Monthly Family Chapel
- Schoolwide special events and outreach opportunities
- Activities sponsored by Sanlando United Methodist Church

Cost and Funding:

Families will be responsible for any amount over and above their scholarship award.

- Tuition for the on-campus portion of the program is \$7500 annually.
- Application Fee = \$75
- Registration Fee = \$175 per child
- Materials Fee = \$350 per child
- Uniform Fee = \$15 per child

Personalized Education Program (PEP): The [PEP scholarship](#) award can be used by families to cover the cost of part-time private school instruction of at least two days per week, along with cost of curriculum, fees for services provided by approved Choice Navigators, and more. Funds are distributed directly to providers or paid by families and reimbursed by the funding organization.

Family Empowerment Scholarship for Students with Unique Abilities (FES-UA): Funds may be used for tuition and fees for a private school, homeschooling options, therapies, tutoring and more.
